fight
cancer is
your
choice!!!**

“No type of cancer is to be taken lightly. If it is not treated properly and completely removed, it will continue to spread and eventually prove fatal. The first step is to cleanse the bloodstream by thoroughly relieving constipation and making all the organs of elimination active ... I have been asked many times what my cure for cancer is. Here it is in a nutshell: correct food, herbs, water, fresh air, massage, sunshine, and exercise, rest. If cancer is suspected, clean out the system, and get a new supply of pure blood. There are nonpoisonous herbs that will purify the blood and kill malignant growths internally or externally, leaving no bad after-effects. Cancer will not live in a system when the bloodstream is pure.”

Lump is gone without dangerous surgery

Joe Rocha, a custodian at Roger Williams University in Rhode Island, was outside washing windows a few years ago when a stiff breeze blew in from Mount Hope Bay. Shortly after, the career Navy veteran complained of severe pain on the right side of his face.

He suspected neuralgia and then thought the pain was from a tooth.

He went to his dentist and the problem was not his tooth. It was serious.

Joe Rocha then went to a family friend, a physician, who thought the problem was something worse than neuralgia and he was right. There was a swelling of the neck and a lump was detected.

He underwent a series of tests and a tumor was found.

The prognosis sent fear through the Rocha family. Because of the location of the tumor, Joe Rocha was told that surgery could result in serious consequences.

Joe's wife, Maria, said she was terrified of the prospects of the operation. Her husband's doctor was preparing his team of surgeons and nurses to perform the tricky operation in a Fall River, MA, hospital.

There was little comfort from the doctor who admitted to the Rochas that the tumor was in such a difficult place the operation itself could result in a heart attack, a stroke and possible paralysis on one side.

Mrs. Rocha insisted her husband see their former neighbors and longtime friends, Jim and Tricia Feijo before undergoing surgery.

It was the second time the Rochas turned to the Feijos for lifesaving advice. "Jim and Tricia saved my life when doctors said I would die from candidiasis. Thanks to the Feijos I'm here and well. I thought they could help Joe."

Joe began taking herbs and shark cartilage.

Mrs. Rocha, a lay minister, put her faith in God. The Rochas and their two daughters prayed that the operation could be avoided.

Mrs. Rocha thought she detected the tumor getting smaller over a six-week period.

It was just a few days before Joe was about to undergo surgery that the couple met with the physician at a clinic in Fall River, MA.

The doctor examined his patient and Maria couldn't restrain herself. "Don't you think the lump is shrinking?" she asked the doctor.

The physician said the type of tumor Joe had only grows bigger and never shrinks. Joe's wife insisted that it was her opinion that the tumor was smaller.

The doctor wasn't convinced and set into motion all of the details for the surgery to take place in four days.

A couple of days later, the phone rang at the Rocha home in Portsmouth, RI. It was the doctor and he asked that the Rochas meet with him in his office the day before the scheduled surgery.

"We were amazed," Mrs. Rocha said.

According to Maria, "He (the doctor) told us that my words kept ringing in his ears and that a closer examination revealed the tumor had shrunk, something he had not seen before."

The family went to a restaurant to celebrate and while they were driving home Mrs. Rocha said she broke down and cried, overcome by the joy that her husband of many years had been spared.

Joe faithfully took his herbs and shark cartilage and the prayers of the Rocha family were answered.

The Rocha story hit home for Tricia Feijo.

She watched as her own mother had a similar growth years ago.

Tricia's mother opted to go the route prescribed by her physician and underwent surgery, radiation then chemotherapy.

Initially, immediately after the diagnosis, she started on some herbs that Tricia recommended. The tumor stopped growing but the doctor insisted that Tricia's mom was wasting time and talked her into undergoing surgery.

"I'll never forget it," Tricia said. "My mother told me that when the doctor came in to her room after the operation, he sort of smiled and said the tumor he removed was shriveled and he never saw anything like it."

Tricia believes it was the herbs that had stopped the growth of the tumor.

She still wished the doctor had not talked her mom into accepting surgery.

Tricia says she also wishes 7 Herb Formula was available at the time her mother was diagnosed with cancer.

After a lengthy, painful ordeal of radiation ~ to kill "stray cancer cells" ~ and chemotherapy after the cancer returned, Tricia's mom ended up on oxygen.

7 Herb Formula battles cancer

Tracey was given no hope!

The doctors had pretty much given up on Tracey. She had leukemia and tumors on the brain, behind the heart and on her liver.

The allopathic methods of dealing with the advanced cancer would be more chemotherapy. She had gone the chemo and radiation route just months before and knew her weakened body could not endure another round of chemo.

The doctor tried to pressure Tracey into taking chemo and she refused, angering the doctor. Her rejection of his chemo protocol led to a heated argument in his office and Tracey decided to take control of her own recovery.

A woman that Tracey had befriended while in the hospital accepted the chemo treatment and the unfortunate result was that her friend died.

This is Tracey's story in her own words as told in 1997:

"I had contracted leukemia and had three inoperable tumors. When I decided not to do chemotherapy or radiation, my father sent me Bio*Mixx and 7 Herb Formula. Each day as I took it and got it into my system more and more, the better I felt. Then I added Garlic Pur, Siberian Ginseng and BioShark."

"I am now in complete remission. The cancer cell count has dropped, the doctors tell me. I had a tumor just above the brain stem in my brain that has completely disappeared. The tumor on my liver is shrinking and the tumor behind my heart has shrunk over 50%. My weight, which dropped to 103 pounds, is on an uphill. There are other alternatives besides chemo and radiation!"

Tracey's father recently called the radio show. He said Tracey had a problem. Tricia Feijo said her heart skipped a beat when she heard Tracey's father. That concern soon evaporated.

"Yeah, Tracey can't keep her feet on the ground these days," he said, then revealed that the young woman's new doctor had declared her free of cancer.

Below you will find the reports of Tracey's progress and what she did as an alternative to the chemotherapy.

7 Herb eliminates pre-cancerous growth

Kathy Carlton tells her story of how 7 Herb Formula helped her.

I'm 42 and I lived in Florida most of my life ... So, I've lived in the sun all my life. I had a pre-cancerous "wart" on the back of my leg and drinking 7 Herb Formula made it go away.

I get these pre-cancerous things; the doctor checks me every several months. He says they are pre-cancerous.

I had one on my hand once that was turning into a melanoma. The doctor burned it off. He usually burns them off. When they're small, he waits until they get bigger, then he burns them off.

He gave me a cream when they were small but that irritated my skin.

Anyway, I had one on the back of my leg that was getting big but the 7 Herb Formula made it go away. Maybe it took four or five weeks, but it just fell off; it got looser and looser and then it just fell off. I have the scar to prove it.

I was taking the 7 Herb Formula and at first noticed no difference. But I took it about twice a day for five weeks. After five weeks I noticed better energy levels. I started taking it in August (1997) ~ so in the past four months I've gone through four bottles ~ because back in June I started getting stomach pains. In the morning I was waking up with bad pains. In June I went to the doctor because I was afraid I was having a heart attack or something. I was given an appointment for September to be tested. The doctor thought it was my esophagus ~ a lot of acid and heartburn. So I went to the GI specialist in September and had an upper GI, but by then the pain had gone away. The 7 Herb Formula had cured it! It got rid of the acid problem but I keep taking it (7 Herb Formula).

I would take a shot glass full in the mornings ~ usually straight ~ and then drink a lot of water afterward. Then I would take a shot before bed. Now I only take it once a day or, some days, not at all. If I feel I'm getting a cold or something. I take extra. I haven't gotten sick once since I've taken it ~ not the flu or anything. And usually I would have (become sick) by now.

And I used to feel tired around 2:00 p.m. but not anymore. The 7 Herb really gives me energy and it keeps me from getting hungry. I do use Lean Body sometimes instead of skipping meals but I do not do Lean Body all the time. The 7 Herb helps me maintain my weight. I don't lose but I don't gain. At first I lost 10 pounds. Maybe because I have more energy, I do more. I used to get low blood sugar a lot and now I'm okay. And I don't have high blood pressure anymore (I also take dandelion root for a diuretic).

I think 7 Herb Formula balances out the immune system. My sister has lupus ~ I wish she would try it out ~ I want to send her a bottle to Virginia.

Mentally, I even feel better. I recently ran out before leaving for Las Vegas. We were there for seven days and I felt so tired without the 7 Herb. It makes a big difference.

And the most amazing thing was when I had the upper GI in September, and the x-ray showed nothing there. Before, I had bad pain constantly ~ by then, nothing.

It's so amazing. It would ease the pain ~ right away ~ in a few minutes. Before that, I tried Tagamet and it would do nothing. It actually made my stomach hurt worse. Really, it's amazing!

Pre Post™

Daniel Chapter One has been using its PrePost formula, a BioMolecular athletic food source for almost 15 years. PrePost is the world's first Soy based multi-nutritional high calorie sports supplement. Athletes and cancer patients all over the world have used PrePost for over a decade. By increasing an individual's caloric intake and adding Soy to their diet Daniel Chapter One has been able to see astounding results. Years of study and research helped Jim Feijo discover the benefits of using Soy as a protein base for overall better health. Recent studies have shown the importance of Soy protein in everyone's diet. Since Jim developed PrePost, many other Daniel Chapter One products have been developed with a Soy protein base. These products are now starting to get the recognition they have deserved. Attached below is an article from Vitamin Retailer Magazine¹. This article explains the benefits of the Soy isoflavones, genistein and daidzein, found in Daniel Chapter One's BioMolecular formulas.

"Soy isoflavones (genistein and daidzein) confer protection against the so-called hormone-dependent cancers, such as breast cancer, and prostate cancer. For instance, when breast cancer cells are grown in the laboratory, genistein arrests their growth."²

Isoflavones are hypothesized to protect against cancer through at least four mechanisms. First, the weak estrogen activity of isoflavones reduces the risk of hormone-dependent cancers. Second, the antioxidant effects of isoflavones protect against cancer causing free radicals. Third, isoflavones beneficially affect enzymes. Finally, isoflavones inhibit angiogenesis, a process which would otherwise nourish growing cancer cells.

A growing problem faced by cancer therapy is the occurrence of very hardy tumors. A so-called "multidrug resistance gene" acts as a pump within some cancer cells, actually expelling anti-cancer drugs before they can eradicate the cancer. In effect, the isoflavones, in some difficult to treat cancer cases, may be one of the few treatments that the tumor is not able to resist."³

Ancient cancer remedy is improved upon

Herbal formula taken to maximum potency by Daniel Chapter One

Jim and Tricia Feijo are the founders of Daniel Chapter One and co-hosts of a nationally syndicated talk show.

Jim is the founder of BioMolecular nutrition. He holds bachelor and master degrees from Springfield College in Massachusetts. He has trained athletes ranging from Pop Warner Football to professional.

Tricia is a classical homeopath who graduated from the New England School of Homeopathy. She is also a trained writer whose column appeared in publications in New England. She has studied nutrition and whole food science for nearly two decades.

Jim Feijo is the ever-active researcher who looks to God-given nutrients to deal with health issues. Over the years, he has developed a number of high quality products.

His unique ability to develop all-natural nutritional products that could build body mass in athletes caught the attention of Chinese doctors and scientists.

Several years ago, He was invited to lead research at the Beijing Research Institute of Sports Science working with world-class Chinese athletes. He directed the athletes on the use of Daniel Chapter One products and monitored them through his unique computer program.

The results were so impressive it caught the attention of Russian scientists and he was invited to Moscow to conduct similar studies.

Besides helping world-class athletes, his computer program and products were found to be effective in helping people with chronic illness.

In addition to his sports nutrition line, Jim has developed a line of health supplements and natural remedies. One of the products Jim Feijo is especially proud of is his 7 Herb Formula.

The reason he is so delighted with 7 Herb is the effects he has seen on those who have used the product and the results that have been documented. The testimonials keep on coming in to Daniel Chapter One.

Jim improved upon the ancient Ojibway Indian

Tribe remedy known as Essiac and used by the late Dr. Charles Brusch ~ personal physician to President John F. Kennedy ~ to enhance the healing properties. Dr. Brusch said of the Essiac herbal formula: "It will greatly improve any condition afflicting the body!"

As a result of his research, Jim found that by adding Siberian Ginseng and Cat's Claw to the Essiac formula, he could attain remarkable healing results.

The two herbs were added to Burdock Root, Turkey Rhubarb, Slippery Elm, Sheep Sorrel and Watercress.

It was determined that in order to achieve maximum effectiveness of this formula, the individual herbs must be cooked to a precise temperature for that specific herb and thus ensure 100% maximum phytochemical potencies.

In similar products all of the herbs are cooked together, diminishing the potency and effectiveness of the herbs.

So 7 Herb was formulated to the specific requirements of Daniel Chapter One. The rigid, precise individual preparation of the ingredients was a vast improvement over the original formula. It has been called "revolutionary."

"We feel blessed that God has revealed this formula to us and that we have been able to provide those in need of help an alternative to chemotherapy and radiation," Jim Feijo said.

Daniel Chapter One HealthWatch, which airs coast-to-coast five days a week, continues to hear the testimony of people who are using 7 Herb Formula.

Among those who spoke of dramatic results using 7 Herb Formula ~ during the live talk show ~ are Joe and Maria Rocha and Jim Givens. Their stories are contained in this newsletter.

Jim Feijo concluded: "There was a time in the not-so-distant past that we were voices in the wilderness, but today the American public is crying out for alternatives to harmful drugs. Our message has a vast audience today."

Victory over Gulf War Syndrome

The following is a letter Wayne L. Harms sent to the Gulf War Veterans Association, reprinted with his permission.

Wayne went to the Persian Gulf in 1994 to lend his services as a minister for our troops overseas. He tells us how he victoriously overcame his personal war on cancer and Gulf War Syndrome with the help of Daniel Chapter One.

In January 1998, after years of declining health, my wife and I both tested positive for Mycoplasma Fermentans Incognitus (MFI), better known as Gulf War Illness. In October 1998, we both tested negative.

In June 1998, a skin cancer clinic identified seven spots of Squamous Cell Carcinoma Cancer on my arms and legs. The largest spot was about the size of a quarter and the smallest was about the size of a pencil eraser. In October 1998, there is no trace of the cancer with the exception of a very small spot of light colored scar tissue where the largest spot had been.

The standard treatment for MFI is 2 or more years of antibiotics in cycles of 6 weeks with a 6-week rest period in between each cycle of medication. We veered from the standard treatment for reasons I will explain below.

Immediately prior to deployment to the Gulf and while in the Gulf, I was given shots which were never entered into my shot records. They were entered into medical records, but those pages conveniently disappeared when I returned to the states. Without knowing it, I passed the MFI on to my wife. The following are problems (see My Symptoms below) which I did not have before Desert Storm but developed after returning home.

We were unable to find a doctor to treat us or even talk about GWI until April 1998. At that time we both began a six-week cycle of Doxycycline. The symptoms became worse for about two weeks, then seemed to clear up very well. About 3 weeks after the end of the first cycle, the symptoms returned but not as severe as they had been before treatment began.

It was at this time the cancer was discovered. I had been directly exposed to insecticides in the Gulf and it lay wet on my bare skin for up to an hour before I could get to a place to wash it off. The doctor believes this may have been the cause of the cancer and that it lay dormant until I began the antibiotic treatment. She said that one of the side effects of antibiotics is a suppression of the natural immune system, which would allow the cancer to grow more rapidly.

I decided to stop the antibiotic treatment and try a

natural herbal and vitamin remedy I had been told about. Within about 4 weeks, all my symptoms had cleared up and have never returned. I continued on the natural remedy until today, October 19, 1998, when I was notified my tests showed I was completely cured of MFI. My wife decided to continue on the antibiotic six-week cycles, but on the six weeks in between, she also used the natural remedies. None of her symptoms came back after beginning the natural remedy. She also was notified today that she is completely cured of MFI.

The natural remedy was obtained through an organization called Daniel Chapter One. They are on the Internet at www.danielchapterone.com. They also can be heard on the radio on Accent Radio Network.

I don't know how this stuff works, but it worked wonders for me and my wife. The insurance agent just laughed when I suggested a partial reimbursement of some of the expenses so, in addition to my full-time job I took 4 part-time jobs to pay for it. It paid off for us and I hope the information may help a few of you. I know there are many forms of GWI caused by things other than MFI and I don't know which of the products will help the other forms. The main thing is NEVER GIVE UP. KEEP FIGHTING. This is easy to say now, but I was at a point where death looked like the only way out. Support and encouragement from friends helped carry me through and it can do the same for you.

My symptoms were:

- ï Very bad night vision
- ï Strong sensitivity to sunlight and bright lights
- ï Pain in back of eyes
- ï Eyes blur, then clear up on a frequent basis while driving, cars and highway would become like a smear of finger paint blending in together, then clear up
- ï Frequent severe headaches and chest pain (hospitalized for heart attack but the doctors could not find anything wrong)
- ï Constant muscle pain in left arm and leg
- ï Severe loss of strength in left arm and leg
- ï Frequent uncontrollable shaking of both arms and hands

My wife's symptoms were:

- Frequent coughing, Difficulty inbreathing, Short-term memory loss, Pain in back of eyes, Dizzy spells, Balance problems, Periodic nausea, Aching joints and muscles, Loss of concentration, Fatigue, Nervousness/Anxiety, & Depression

Of special interest is that our complete healing with natural products took place in less than 1/4 of the time as the average cure with antibiotics and without the side effects.

Doctors gave up on Michigan man

When Jim Feijo greeted Richard Nelson, a talk show caller from East Grand Rapids, MI, with "How are you doing Richard," he received this short reply: "Lots better now." There was more.

The caller went on to explain his situation. He is living proof that doctors may be wrong in surrendering to defeat in life and death situations.

Richard went into the hospital for treatment of a hernia and doctors broke the shocking news to him ~ melanoma. The outcome prediction was grim.

It was in August of 1997 when Richard's cancer was discovered and he was soon undergoing chemotherapy.

Even with treatment, he was told he would only have nine months to live.

An angel he says, in the form of his brother-in-law, told him he had heard Daniel Chapter One HealthWatch and listened to Jim and Tricia Feijo talk about the success of 7 Herb Formula in helping people with cancer.

"My brother-in-law asked me if he bought me the 7 Herb, would I take it and I assured him I would," Richard said on the coast-to-coast broadcast that was originating from Las Vegas, NV.

Richard reveals: "I had lost my faith. After my fourth treatment with chemo, the cancer masses stayed constant. I started taking the 7 Herb and that tumor was shrinking. At the last treatment, I was told the tumors had liquid centers and were on the verge of drying up. Then I had a CAT scan and it was found that there has been massive tumor shrinkage."

Jim Feijo called the Richard Nelson story a great example of how people can come to the rescue of others.

Pre-Cancerous Growths & Acid and Heartburn

"And the most amazing thing was when I had my upper G.I. in September, and the X-ray showed nothing there. Before, I had bad pain constantly...by then, nothing."

~Kathy Colton

After using 7 HERB and other DC1 products for pre-cancerous growths and for acid & heartburn.

Bio Shark™

In 1983, two researchers at the Massachusetts Institute of Technology published a study showing that shark cartilage contains a substance that significantly inhibits the development of blood vessels that nourish solid tumors, thereby limiting tumor growth. This effect is called anti-angiogenesis.

Scientists recognize the benefits of starving a tumor to limit its growth. They have been looking for a drug to patent that can do the same thing as shark cartilage. They say the answer to curing cancer lies in preventing angiogenesis ~ the formation of blood vessels which feed the tumor. These scientists are trying to replicate what God has already presented to us so that they can claim rights to it, patent it and make a lot of money. But man can never lab synthesize a product and make it exactly the same ~ and all drugs have harmful side effects.

Researchers have also demonstrated that shark cartilage can reduce the inflammation and pain associated with arthritis, alleviate psoriasis and have a positive effect on other degenerative diseases.

7 Herb Formula helps battle cancer

The amazing story of Jim Givens is documented. The outlook for Mr. Givens was bleak and he turned to Daniel Chapter One to help him through his battle with cancer. For the results, read the story below.

Jim Givens of Middletown, RI, has dedicated himself to saving others who get in harm's way. Among his patented inventions is the Givens Life Raft ~ uniquely designed to remain stable in the most severe conditions and credited with saving hundreds of lives.

Last September, and for the third time in recent years, a tumor was detected in Jim's prostate. The prognosis was bleak.

A survivor by nature, Jim was determined to beat the growth that was threatening his life.

The survival instinct of the Korean War veteran kicked in. After he overcame the second bout of prostate cancer, he admittedly stopped taking the Daniel Chapter One products, which had successfully helped to combat his previous tumor.

The Korean War vet quickly swung into action ~ meeting with his longtime friend Jim Feijo, founder of Daniel Chapter One, at the Rhode Island center.

Jim Givens was suffering from rectal bleeding and pain. He revealed to Jim Feijo that he was using chips of ice to ease the flow of rectal bleeding.

This is a portion of the report ~ dated October 17, 1997 ~ of the Department of Diagnostic Imaging at a hospital in Providence, RI: "The patient is status post prostatectomy with multiple surgical clips present in the pelvis. There has been interval development of a 2.5 cm AP x 3.5 cm transverse x 4.5 cm CC soft tissue mass in the rectovesical space on the left which causes extrinsic compression on the posterior wall of the bladder and may actually invade the bladder. There also may be involvement of the anterior wall of the rectum."

It goes on: "IMPRESSION: INTERVAL DEVELOPMENT OF THE 4.5 cm SOFT TISSUE DENSITY IN THE RECTOVESICAL SPACE ON THE LEFT SUSPICIOUS FOR LOCAL RECURRENCE OF PROSTATE CARCINOMA.

THERE MAY BE ASSOCIATED INVOLVEMENT OF THE POSTERIOR WALL OF THE BLADDER AND THE ANTERIOR WALL OF THE RECTUM."

The report was devastating. So Jim Givens asked his friend of many years if taking a whole bottle of 7 Herb Formula would hurt him and Jim Feijo replied that "NOT TAKING" 7 Herb would hurt him.

Jim Givens' physician is one of New England's leading oncologists but Jim ~ who when parachuting into combat over Korea had his chute fail to open and fell 500 feet before a comrade caught him and carried him safely to the ground ~ saw the need for alternative help if he was to win this battle for his life.

Jim Givens was determined to win this personal war as much for himself as for his three children, ages 14, 18 and 20 years, who need him.

A single father, Jim began taking the 7 Herb and shark cartilage. He continued on a hormone.

He sat himself down and drank an entire 32-ounce bottle of 7 Herb in less than an hour.

This was war and Jim is not one to surrender without a good fight.

The inventor said that as he drank the 7 Herb Formula, he experienced a strong burning sensation in the area of the tumor.

He went to bed that night. The burning persisted.

Eventually the burning sensation passed and Jim felt something had happened. He went to a physician at a hospital in Newport, RI, and the results are documented.

Within 60 days, Jim Givens' PSA level dropped from 256 to 5. X-rays were taken and he brought them to the oncologist in Providence. The report on December 17, 1997, based on diagnostic imaging at Newport Hospital, included the following impression:

"1. Status post prostatectomy with no evidence for metastatic disease.

2. Probable right renal cyst."

On December 22, 1997, the attending physician wrote the following subsequent to an examination.

"No evidence of ulcer or tumor."

Jim Givens took the reports, along with X-rays, to the renowned oncologist in Providence.

The doctor looked bewildered, Jim Givens said, and repeated the oncologist's words that still echo in the ears of the former soldier. The doctor told him, "Your tumor is gone."

Jim Givens said he feels like the proverbial cat with nine lives and he credits Daniel Chapter One and his old friend Jim Feijo with helping him beat his battles with prostate cancer.

He reports he is feeling great these days and is back on the job saving other people's lives. Jim Givens continues taking his 7 Herb and doesn't plan to stop this time around.

Lump is gone without dangerous surgery

continued from page 2:

Tricia recalls how herbs, such as fenugreek, eased her mom's suffering and allowed her mother to breathe on her own and to live her final days without being attached on an oxygen machine.

Tricia convinced the Rochas that Joe's best hope was to take natural remedies rather than go under the knife.

The Rochas are ecstatic that they listened to Jim and Trish Feijo and avoided surgery.

The growth is gone and the Rochas spent part of February and March in Florida, soaking up the sun and getting together with old friends.

Joe and Maria continue to take Daniel Chapter One products and both credits the Feijos with saving their lives through natural remedies.

The Rochas told their story during the Daniel Chapter One HealthWatch Save the Nation tour in Florida.

Cancer Success a Lie!

The increase in cancer survival rates is deceptive, according to a study published in the Journal of the American Medical Association June 14, 2000. The study reveals the fact that the five-year cancer survival rate is misleading because people are being diagnosed earlier and consequently are living longer after detected cancer, appearing to be living longer due to cancer treatments. Dr. Gilbert Welch, lead author of the study, analyzed the data and concluded that the increase in survival rates is mostly influenced by earlier diagnoses of cancer, not advances in treatment.

In addition to the scam of all sorts of tests for cancer and earlier diagnoses, is the scam of surgery as cure. After removal of a symptomatic body part, oncologists wipe their hands and say "we got it all," so deceived are they or ignorant as to not perceive cancer as it really is, a systemic disease. (That's why cancer seems to "come back.") Or they continue with chemo or radiation to "get any stray cells," when those very treatments lead to secondary cancers, ACCORDING TO THEIR OWN ONCOLOGY TEXTBOOKS!

We personally choose not to spend the time or the money to be tested upon to make their stats look good. If our bodies develop any symptom, lump or otherwise, that could signal cancer we treat 'worse case scenario' ~ as if it were. And we treat ourselves naturally, with God's herbs and nutrients, knowing that if ever they don't 'work,' nothing else would have. We also choose not to be willingly tortured at the hands of men.

Enzymes attack growths

Daniel Chapter One GDU Caps contains proteolytic enzymes that metabolize protein and can aid the body in breaking down a tumor

The importance of oral enzymes in treating cancers has been the subject of scholarly papers and books for almost a century.

At the turn of this century, Dr. John Beard of Scotland discovered that cancer cells behave much like trophoblast cells, the placenta cells. He set out to determine why the placenta stopped invading the uterus, during pregnancy, and ceased growing at the end of the third month. Dr. Beard's study was conducted to find out if there was a way to stop the growth of cancer.

The Scottish researcher discovered that the very day the placenta stops growing and invading the uterus is the same day the fetus's pancreas starts producing its secretions. Enzymes, according to researchers, can change leukemia cells, returning those cells to a normal state. Enzymes have been shown to induce T cells and tumor necrosis factor.

The enzymes, while helping to destroy cancer cells, are not toxic, unlike other forms of treatment currently being imposed on cancer patients. Enzymes are most effective when they are included in a program of healthy diet, nutrients and detoxification procedures.

God has provided numerous forms of enzymes. There are plant-derived enzymes and enzymes from animals glandular.

Enzymes offer a non-toxic and inexpensive natural therapy in the battle against cancer.

Daniel Chapter One GDU Caps contains proteolytic enzymes that God created to break up an excess protein mass and can aid the body in eliminating a tumor.

Texas businessman has true friends for life

Florida family shares its discovery of Daniel Chapter One success

What are friends for?

The answer to that question is personified in the Dellinger family of Milton, FL. Drew, 37, and his parents, Dean and Dorothy, have been using Daniel Chapter One products for about a year and are enthusiastic about the results. The Dellingers heard Jim and Tricia's Daniel Chapter One HealthWatch radio show in Milton and ordered products that they say had remarkable results.

The Dellingers wanted to share their discovery with family friend, Dick N. of Garland, Texas, who has been suffering from emphysema, 18% capacity in one lung and 27% in another, and bladder cancer.

They employed the persuasive powers of a mutual friend, Ed Kulikowski, whose daughter Tracey (See related story on opposite page) is cancer-free as a result of using the Daniel Chapter One products.

Mr. Kulikowski contacted the Texas Oil company executive and said that the Dellingers were willing to provide him with Daniel Chapter One products for his breathing problems and problems associated with his cancer.

Drew Dellinger said the family friend received the package of products and hesitated to use them.

The package included 7 Herb Formula, AM*PM, Herbal Blast, Bio Shark and Bio*Mixx.

The Texas oil executive reportedly downed six ounces of 7 Herb Formula right away and as soon as he did, Drew said, Dick N. felt as though an "electrical wave" went through his system. Drew said his friend told him that he began shaking.

Dick didn't know what was going on, Drew Dellinger said. He reportedly asked his wife, Carmen, "You reckon this stuff will kill me?"

Every 15 minutes, she would bring AM*PM, 7 Herb, or Herbal Blast for Dick to drink, Drew reported.

What were the results for a man with partial use of his lungs and someone who had undergone several operations for cancer? He quickly began breathing better and is now off oxygen during the day but stays on it while sleeping. The excruciating pain that accompanied urination is gone.

According to Drew, the Texas businessman is back to work and telling people he never felt better.

He said that Dick told him the employees think he has been drinking because he seems like his jovial, energetic self.

The Dellingers are pleased they could come to the rescue of their friend. They said they have so much faith in Daniel Chapter One that it simply seemed the right thing to do to help their friend in a struggle to regain his health.

Not too late!

Joe's dad was first diagnosed with prostate cancer at the age of 83. Joe Sr., now 93, has endured much at the hand of allopaths. In January 1999 Joe's dad suffered from digestive tract pain and constipation, accompanied with intense pain in his groin. Pain and hardship was nothing new to the tough old bird who enjoyed the very active outdoors work of a farmer.

Father to eight kids and still active and fighting. Joe describes his dad as having a very sharp mind, and strong body that not only has endured time but 10 years of prostate cancer. It is not time nor the prostate cancer that has taken a physical toll, but the standard and accepted medical treatments that have been most destructive.

In 1997 Joe Sr., at the age of 91, had prostate surgery. Two years later in January 1999 his PSA was up to 36. As usual he had the best doctors, nutritionists, dietitians, radiologists, and everything necessary to assemble the finest team. Joe Sr. then endured 30 radiation treatments within six weeks. During this time he lost a lot of weight as to be expected. Over a five-month period he lost a total of 30 lbs. with his scale weight plummeting from 165 lbs. to 135 lbs.

With stage 4 cancer and given only 6 months to live, Joe's dad was not doing well. Morphine was given for pain in January. The morphine was stopped in February. Joe took things in his own hands! He shared what he heard about Daniel Chapter One and their approach using 7*Herb Formula, and with faith in God, not scientific lab reports, he said to his 81 year old mom, "I know this going to work."

So the family started dad on 7*Herb, 4 ounces a day. After radiation Joe described his dad as gray, something too many of us are familiar with. Weeks of sickness, vomiting, and loss of weight had taken its toll. With 4 ounces of 7*Herb Formula per day, in just 2 days Joe and the family watched dad's color come back. (Yes two days - well, God is awesome!)

Joe's dad was on morphine in January 1999 with a PSA of 36 and was given 2 months to live. (Incidentally the oncologist, a female doctor, had some negative comments when Joe said he believed in natural healing as an alternative to chemotherapy. She said, "it's a little late for that!") Fortunately for this Christian family it was not too late. Joe had been a faithful listener of Daniel Chapter One HealthWatch radio program when a local station used to carry the talk show. Remember January 1999 PSA 36? End of July 1999 PSA 3.3 Not bad!

Joe is still taking 2 oz. of 7*Herb a day. Some of you might be wondering what was done to replace morphine, the end-of-the-line allopathic treatment for pain. This is usually when they expect you're going to die soon. You see, the Cancer team, the best Cancer team really didn't expect Joe Sr. to live past February or March.

January ... two months to live. What had happened in January 1999 was a larger tumor had grown and was blocking normal urine flow from the kidneys to the bladder. This is why they gave morphine and radiation and two months to live.

GDU to the rescue! Yes, Joe used instead GDU ~ no morphine. Today Joe Sr. remains pain free.

PSA 3.3, no pain, alive August 1999! God bless Joe and his faith to trust in the Creator.

P.s. Mrs. Joe's rheumatoid arthritis is now under control, but that's another story. The never ending story of glory to God...

Garlic Pur™

Odorless garlic 100:1 extract. Fights infection, detoxifies the body, enhances immune function. Many healing properties including lowering blood pressure and improving circulation. A 2 capsule serving is equivalent to 10,000 mg whole clove garlic and contains: Hawthorn Berry Powder 500 mg and Cayenne 200 mg. Tarig Abdullah, MD of Florida found that white blood cells from garlic-fed people were able to kill 139% more tumor cells than white cells from non-garlic eaters. Garlic and onions fed to lab animals helped to decrease the number of skin tumors.

GARLIC PUR (Total Allicin Potential Garlic) Allicin is thought to be responsible for many of the health benefits of garlic. This active ingredient is formed when the important components of allin and allinase, which are present in garlic, combine when the clove is crushed. Because allicin can never be measured directly, we look instead at the amount of allicin that can be potentially formed. This is referred to as the Total Allicin Potential (TAP) and is the measure of garlic's potency. Garlic Pur is odor-controlled, easy to swallow and digest. Garlic Pur is the highest Allicin Potential Garlic available anywhere.

Research Summary: Supports the body's natural defense system. Helps combat viral, bacterial and fungal infections. Helps enhance the health of the entire cardiovascular system. Allicin promotes healthy blood pressure and cholesterol levels. The most common form of cancer worldwide is stomach cancer. Chinese researchers find that a high intake of garlic and onions cuts the risk of stomach cancer in half. Garlic provides the liver with a certain amount of protection against carcinogenic chemicals. Scientists find that garlic lowers blood pressure and fats in the blood, stimulates immune function, and generally improves health.

Scientific Review

reports garlic is a natural antibiotic with proven anti-cancer properties

An article in Scientific Review stated that garlic appears to have the strongest anti-cancer effect when consumed regularly before the onset of cancer or when cancer cell numbers are small. The article stated that garlic is a natural antibiotic, useful against infection, and may also lower blood pressure. Garlic detoxifies the body, helping to combat disease and is proven to have anti-cancer properties. It is said to destroy cancer cells and inhibit the initiation and promotion stages of cancer.

Daniel Chapter One Garlic Pur is a specially cultivated Japanese product which has been concentrated to yield high amounts of the compounds which may be responsible for many of garlic's renowned effects. Beneficial compounds found in Garlic Pur are also preserved through an 18-month aging process. Daniel Chapter One Garlic Pur has the added benefits of Hawthorn Berry and Cayenne, herbs found helpful for heart and circulatory health.

7 Herb Formula

Recipe for health

Herbs are meticulously prepared to enhance healing qualities

The herbs in 7 Herb Formula allow the body to heal by nourishing and cleansing the blood and organs. Below is a list of these herbs, which have been scrupulously and separately prepared, then combined, forming a tea concentrate, and poured, boiling, into quart-size amber glass bottles to ensure freshness and potency. These herbs are:

1. BURDOCK ROOT, used in Ayurvedic and Chinese medicine to treat cancer. It is a potent blood purifier, and is known to decrease cell mutation and inhibit tumors. It restores liver and gallbladder function. Burdock contains the nutrients zinc, iron, manganese, selenium, and vitamins A, B1, B6, B12 and E.

2. SHEEP SORREL, also rich in vitamins and trace elements, high in life-giving properties. It nourishes the glandular system, and is known to relieve internal ulcers. Sheep Sorrel is a traditional folk remedy for cancer.

3. SIBERIAN GINSENG, an herbal "tonic" which has restorative power due to its glycoside content. Glycosides are natural phytochemicals that initiate the body's stress response: so while this ingredient tones the body it also supports the immune system. Siberian Ginseng also produces saponins, steroids found in plants, which have tumor inhibiting effects.

4. CAT'S CLAW, an herb from the Peruvian rain forest. The inner bark, which is what is in 7 Herb Formula, is one of the most powerful cleansers of the intestinal tract. It also is anti-oxidant and anti-inflammatory in action. Cat's Claw stimulates the immune system, enhancing white blood cells, which fight infection. Cat's Claw is used by native Peruvians to treat many diseases, including cancer.

5. SLIPPERY ELM, according to herbalist Jethro Kloss, should be used in all stomach troubles because of its ability to heal, strengthen, and nourish the stomach. He states that it can stay in an ulcerated or even cancerous stomach when nothing else will. It nourishes the organs and tissues due to its nutrient content: bioflavonoids, calcium, phosphorous, polysaccharides, and vitamins A, B, C, and K.

6. WATERCRESS, the same plant used for salad greens and garnishes, is an excellent cleanser in the body, and it can heal mucus membranes.

7. TURKEY RHUBARB ROOT purges the body of wastes and toxic matter. The malic acid inherent in this herb carries oxygen to all parts of the body. A substance called rhein in the herb fights both bacteria and fungus. Studies done in the 1980s show Turkey Rhubarb also has anti-tumor properties.

7 Herb Formula™

This ancient herbal remedy was passed down by the Ojibway Indians in Canada to Renee Caisse and later to Dr. Charles Bruschi, President John F. Kennedy's personal physician. Dr. Bruschi used the improved formula to heal his own bowel cancer. Daniel Chapter One took the formula two steps further ~ greatly enhancing its healing qualities by adding Siberian Ginseng and Cat's Claw.

What is in it?

Burdock Root, Sheep Sorrel, Siberian Ginseng, Cat's Claw, Slippery Elm, Watercress and Turkey Rhubarb. These herbs are all prepared individually and at precise temperatures to ensure maximum effectiveness. Daniel Chapter One uses substantially more herbs per quart, rendering it the most powerful concentrate of its kind.

How does it work?

Daniel Chapter One's 7 Herb Formula has been created to purify the blood and to promote cell repair. It fights pathogenic bacteria and tumor formation. The ingredients in this ready-to-drink concentrate clear skin, cleanse the liver and decrease cell mutation.

Surviving Cancer Naturally

An interesting article appeared in the Townsend Letter for Doctors & Patients, January 1999, by Carole Bradford, a breast cancer survivor. Carole was diagnosed in March 1993 as having a “high-grade infiltrating ductal cell carcinoma of the right breast ... grade 3.” After a lumpectomy in May of 1993 doctors saw abnormal tissue in the left breast and feared the cancer had spread. One surgeon pushed for a double mastectomy; others “pestered” her to take chemotherapy. She refused, and chose instead to take a nutritional approach to healing her cancer. As of March 1998 Carole was tested and declared free of cancer for 5 years, breasts intact.

In retrospect, Carole Bradford questions a needle biopsy she had of a breast cyst back in 1990, and says “Of course I can’t be sure, but I think that is what they would call “the initial insult.” I don’t feel right about biopsies and I’ll never do one again.” She later asserts “I have my doubts about mammograms too. I wouldn’t do them again either. Squeezing the breast into a vice can’t be any good. And it seems barbaric.” She then goes on to explain that the only orthodox things she did in her cancer program was the lumpectomy, and tamoxifen which she took for only about 60 days. When she began having daily cervical discharges, she said “no more.” To this she also says “I would never do it again. Some things are just intuitive in nature and you have to listen to your body!” This was before research later revealed that tamoxifen increases a woman’s risk of both endometriosis and cervical cancer.

Tumor Free!

“My mother has von-Hippel-Lindau; a genetic disease where your body makes tumors. She came to have an entire mass on her whole brain and whole spine. It began back in 1979 with a tumor in her back that was surgically removed. Then she developed a brain tumor in 1985, and had surgery for that. Then in 1995 she had another brain surgery. It was in 1995 that she was first diagnosed with this disease.

In 1996 she had another brain surgery, then a lifetime dose of radiation. The doctors said it would be the one cure-all : they did radiation on her entire brain and spine for one hour, 5 days a week, for 6 weeks. But in the fall of 1997 they said her whole brain and spine had become a tumor mass.

The doctors then said they had a new radiation technique they wanted to try. My father didn't want to only trust that, so he searched for other things that might help. He ended up speaking to a man with cancer who was taking DANIEL CHAPTER ONE 7 HERB FORMULA , and started her on that and now she takes 7 HERB, BIO MIXX, BIO SHARK, and GDU Caps.

In the winter of 1998 she started on the DANIEL CHAPTER ONE products. In February 1999 she had a follow-up MRI. To give us the report, the doctor sat down and did a little grin. She said, “We have good news.” She said the tumors were completely gone. We couldn't believe it; we had never had any good luck. We told the doctor what she'd been taking, and the doctor said keep doing it.” “We got my grampa to drink the 7 HERB FORMULA too, and we have it sent to an aunt in Hungary!”

Siberian Ginseng:

From Asia With Love

Siberian Ginseng, a spiny-stemmed shrub with numerous stalks, is indigenous to southeastern Russia and northeast China. Russian researchers described Siberian Ginseng as an adaptogen and non-specific immunostimulant. An adaptogen is defined as having the following qualities:

- A. A substance that causes minimal disorders in the physiological functions of an organ.
- B. Non-specific action such as the ability of Siberian Ginseng extracts to modulate stress and improve performance during a wide variety of stressful situations.
- C. Has a normalizing action irrespective of the direction of the pathologic state.

Traditional Chinese medicine uses ginseng for improving vital energy, treating the kidney and spleen, and restoring a normalization of the body functions.

It has been used as a folk remedy for bronchitis, heart ailments and rheumatism.

The Power of Advanced Biomolecular Nutrition™

Bio-molecular nutrition was first established in 1986 by Daniel Chapter One and has expanded and improved since then. In 1991, the results and accomplishments of Daniel Chapter One reached China and Jim Feijo, founder of Daniel Chapter One and World Sports Nutrition, was invited by the Chinese government to conduct studies at the Beijing Research Institute of Sports Science. Jim led Chinese researchers in two studies involving world-class Chinese athletes, judo and weight lifting. After the conclusion of these studies, Dr. Li invited Jim to lecture to the institute's scientists.

At that time, Jim Feijo was invited to conduct studies and lecture at the Sports Research Center in Moscow. The science of Bio-Molecular nutrition is available to you through the research done by Daniel Chapter One and World Sports Nutrition.
